

Player< T >

```
graph BT; smartPlayer[smartPlayer< T >] --> Player[Player< T >];
```

The diagram illustrates a generic inheritance relationship. At the bottom is a gray rectangular box labeled 'smartPlayer< T >'. A blue arrow points vertically upwards from the center of this box to the bottom center of a white rectangular box labeled 'Player< T >' at the top. This indicates that 'smartPlayer' is a specialization or subclass of the 'Player' base class.

smartPlayer< T >
